Full-stack engineer with 10+ years of experience building enterprise software, from IoT platforms to ERP integrations. Strong background in Java, JavaScript and microservices architecture, with hands-on DevOps and system administration skills. I enjoy owning features end to end: design, code, deployment and operations.

PROFESSIONAL EXPERIENCE

May 2026 - Present

Senior Technical Consultant

AKQUINET MSC IT Srl (Milan, IT)

Software development and system integration on the Infor M3 ERP ecosystem.

Apr 2021 - May 2026

Senior Technical Consultant

Atlantic Technologies Spa (Milan, IT)

Software development on the Infor M3 ERP ecosystem for clients in the food and fashion industries, acting as technical lead on several projects:

- Design and build single-page applications with Angular and TypeScript (Infor H5 SDK)
- Develop integration microservices with Java and NodeJS, deployed with Docker
- Build REST-based process automation between ERP and third-party systems (Infor ION APIs, MEC)
- Develop document and reporting solutions (OpenText StreamServe / ExStream, Infor IDM)

Jul 2018 - Apr 2021

Full Stack Developer

Holonix Srl (Meda, IT)

Full-stack developer and system administrator on a proprietary IoT platform, following features from design to production:

- Developed backend services with Java, Spring and Hibernate
- Built frontend and mobile PWA with VueJS (Quasar Framework)
- Designed IoT data pipelines with NodeJS microservices, Apache Cassandra and RabbitMQ (MQTT, AMQP)
- Set up CI/CD pipelines with GitLab and administered an Ubuntu cluster running Docker Swarm

Contributed to EU research projects: bloTope, Lincoln, Z-Fact0r and Z-BRE4K

Jun 2015 - Jul 2018

Technical Consultant

Cicom Soluzioni Informatiche Srl (Milan, IT)

Infor M3 technical consultant and system administrator for medium and large customers:

- Developed ERP customizations with Java (Infor MAK) and process automation with ION APIs and MEC
- Built custom reports with the OpenText StreamServe suite
- Administered heterogeneous infrastructures: Linux and Windows servers, VMware ESXi, networking, backup and email systems (Kerio Connect, MailStore)
- Developed the frontend of an internal resource management portal with ASP

Nov 2012 - Jun 2015

Software Developer

Disiware Srl (Cinisello Balsamo, IT)

Software developer for a biomedical client (Sorin Group):

- Developed desktop software processing data from ATS (Autotransfusion System) machines with C# (.NET, WPF)
- Built an HL7 integration layer to exchange clinical data with hospital systems

May 2011 - Nov 2012

System Administrator

NewMediaLabs Srl (Milan, IT)

System administrator of a web hosting infrastructure:

- Managed Linux (Debian, CentOS) and Windows servers, hypervisors (Xen, VMware ESXi), networking, web servers (Apache, IIS), databases (SQL Server, MySQL) and email (Exim)
- Provided help desk support for hosting, housing and VPS customers

Oct 2010 - Nov 2010

Software Developer

Disi Srl (Cinisello Balsamo, IT)

University internship and thesis project ("Plugin per integrazione 'Monitor Carrozzeri'"):

- Developed a software plugin in C#, integrated and managed through WinDev

EDUCATION

2007 – 2011

Bachelor's Degree in Digital Communication

Università degli Studi di Milano

2007

High School Diploma in Information Technology

Istituto Magistri Cumacini, Mariano Comense

CERTIFICATIONS

- [Infor Certified OS Associate](#) - Oct 22, 2021

SIDE PROJECTS

- [Severi AsApp](#) — customer assistance system with iOS and Android apps, built end to end
- [Climb Archive](#) — Android app cataloguing the most important cycling climbs in Europe
- Custom management software for small businesses
